

## LEPIDOPTERA QUILT FEATURING KONA COTTON SOLIDS

The Lepidoptera quilt sample pictured at left was made using 30 different colors of Robert Kaufman's Kona Cotton Solids, as described below. The Second Edition of the pattern, released in August 2019, includes this sample and a color chart with these colors. The new pattern substitutes 3/8 yard cuts for the Tangerine and Flame fat quarters. However, if you are using this color chart with the original pattern, you will need fat quarters of all 30 colors.

The background fabric in my new sample is Essex Yarn-Dyed Linen Blend in Lingerie. The white and dark detail fabrics are Kona Snow and Kona Pepper. My binding is AZH-18736-341 from my Adventure print collection from Spring 2019. As of August 2019, all of these fabrics are available from Robert Kaufman Fabrics.

### GROUP A (pink group in original)

### GROUP B (orange group in original)

### GROUP C (yellow group in original)

### GROUP D (teal group in original)

### GROUP E (blue group in original)
