

A PATTERN BY

ELIZABETH  
HARTMAN

## BONUS PROJECT!

Use the appliqué pattern on this sheet to make glasses for your Bunny blocks!

# BUNNY GLASSES

## Making the appliqué

1. Use a pencil to trace the glasses shape onto the paper side of a 4" x 8" piece of lightweight fusible web.
2. Follow manufacturer directions to press the fusible web onto the wrong side of a 5" x 9" piece of fabric.
3. Use craft scissors to cut out the glasses shape.
4. Carefully peel away the paper backing and arrange the glasses, glue-side-down, on your block. Follow manufacturer directions to fuse the appliqué shape to the block.
5. Use a zigzag or satin stitch to sew around the raw edges of the appliqué shape.

Before you trace the glasses onto the fusible web, check to make sure the pattern is the right size by placing your ruler over the 1" mark below the glasses pattern. If it matches, the pattern is the right size. If it doesn't match, print this page again, making sure to select "no scaling" or "print at 100%."

These glasses fit blocks from my original Bunny pattern and from Fancy Forest. More information at
